\* Former employees, who no longer work for Abbott or Hospira, are outside Abbott's possession, custody or control. The practice at Abbott throughout the time period 1991-2003 was for a field sales representative who left the company to transfer working files to his or her replacement in the territory. Thus, the most likely available source for working files of these former employees is with the current field sales force of Hospira. Abbott requested relevant documents from the current Hospira Alt Site field sales force (44 people). Thus far, 17 of those people have executed confirmations stating that they have no responsive documents, and those confirmations have been produced to DOJ. Abbott is following up with the remaining 27 people.
